

# Hot Rod

## Trouble-Free Pyrometry

**The cost-effective thermocouple protection system.**

### Graphite / Silicon Carbide Composition

Erosion Resistant • High Thermal Conductivity • Durable

The result is fast, accurate temperature readings that minimise temperature overshoot and provide the correct data when you need it.

The HotRod™ thermocouple sheath range offers a premium thermocouple protection system—providing excellent service life, good accuracy and response. Supplied ready for use with a threaded 1/2" steel tube for rapid attachment to the furnace pyrometry system. Includes removable plastic netting protection to minimise glaze damage in transit.

- Reduced fuel consumption
- Less down-time and costs
- No tools needed for attachment

### HotRod™ REFERENCE NUMBERS and SIZES

PATTERN	DIAMETER (mm)	HEIGHT (mm)	THREAD TYPE
VGI501067	44	1067	R 1/2
VGI50914	44	914	R 1/2
VGI50850	44	850	R 1/2
VGI50762	44	762	R 1/2
VGI50610	44	610	R 1/2
VGI50457	44	457	R 1/2
VGI50300	44	300	R 1/2
VGI50255	44	255	R 1/2
VGI50203	44	203	R 1/2
VGI50155	44	155	R 1/2
